

I am concerned that my radio station, KLOVE, may be affected by an unrelated LPFM station. KLOVE is a unique, Christian and family oriented station that is entirely listener supported. I have financially supported KLOVE for 8 years, as I believe it has a unique service that is unlike any other station on the air. My husband is living in Texas, and also has the ability to listen to the same station. KLOVE also has a "community calendar" to advise me of free events of interest in my area, as well. PLEASE don't jeopardize this unique and listener-supported station that is very important to me and many others in my community, as well as communities all over the country.
